

CZECH.UP and NARA-SK invite you to a webinar.
**We are learning to collaborate in experiential education
 (JukeBOX, CyberBOX, FinBOX, GameBOX, ...)**

Motto: 'We are most influenced by truly lived stories and situations, although we don't necessarily want to experience everything firsthand in reality.'

Experience serves us in understanding a given situation and in adjusting our behavior to better navigate it in the future. Some experiences, however, can be fatal, and with JukeBOX, we provide the opportunity to undergo them in a virtual world. Many people spend a portion of their lives in the virtual realm of games. The key difference between a game and a course lies in the fact that a game provides a relaxing environment that usually does not reflect reality, in contrast to a course.

In this upcoming webinar, following the completion of the CyberBOX project on the CZECH.UP JukeBOX platform, you will have the chance to meet its creators, and we will discuss the team's work experiences.

Webinar Agenda:

Opening Remarks CZ/ENG <i>Ing. Pavel Nácovský, chairperson CZECH.UP</i>	13:00 – 13:10 CZ
